

## Raising hope by lowering your property taxes.

It's happening all across New Jersey! Seniors forced out of the homes where they raised their children. Young couples having to delay the purchase of their first home. And school districts not receiving their fair share of education funds.

Hundreds of millions of dollars that should be going to our public schools and communities to lower property taxes are being misspent by state politicians for political gain, patronage and new pet projects.

It's time for hard-working New Jersey families to agree that we are not going to take it anymore! Bret Schundler has a plan to give families the power to do exactly that.

### The Schundler Plan to Dramatically and Permanently Lower Property Taxes

- ✓ Pass a constitutional amendment to slow the growth of state government and send more of your tax money back to local public schools and municipal government to improve services and lower your property taxes.
- ✓ Pass a second constitutional amendment giving taxpayers effective new powers to control school and local spending.
- ✓ Cut state spending for non-property tax relief purposes to close the state's deficit.
